About this learning activity

This course will provide you with an introduction to cybersecurity. From the offense perspective, you will learn about cyber attackers, their tactics, social engineering, and high profile case studies. From the defense perspective, you will learn about common approaches organizations take to prevent, detect, and respond to cyber attacks. You will also learn about career opportunities in this exciting, growing field. Complete this course to earn the Cybersecurity Fundamentals badge!

Expected duration: This course will take you about 6 hours.

About this learning activity

Red Hat recognizes Red Hat Certified Professionals who demonstrate ingenuity, hard work, and expertise by making a difference in their organizations and in the community. In 2020, **Fabrice Harbulot** was named Red Hat Certified Professional of the Year. Harbulot holds 14 different Red Hat certifications, including Red Hat Certified Architect (RHCA®) in Infrastructure Level VII. He is most proud of the RHCA credential, which represents Red Hat's highest level of certification. "Becoming a Red Hat Certified Architect was the defining moment in my career," he said. Fabrice has developed skills and experience in cloud, DevOps, security, and high-availability systems. He has put that knowledge to work as a **senior Linux systems engineer and technical leader with IBM**, as well as a **Linux administrator for Steria and Canal+ Group**.

Hear from Fabrice Harbulot about his experiences in this video presented by Red Hat.

Sobre esta credencial digital

Badges earners have an understanding of six emerging technologies that power today's jobs: AI, blockchain, cloud computing, cybersecurity, data and analytics, and the Internet of Things. Individuals know foundational concepts, terminology, and how technologies are applied to solve problems in organizations and business. Badge earners can use this knowledge to explore careers in tech.
