Turma: 3º DS AMS

Evidências da conclusão das atividades do Unit 6 Data Persistence - Android Developer

The screenshot displays the Android Studio interface with the 'Developers' tab selected. The top navigation bar includes 'Essentials', 'Design & Plan', 'Mais', a search bar, a settings icon, a language dropdown set to 'Português ...', and the 'Android Studio' logo. Below the navigation bar, three pathways are shown, each with a circular icon, a progress bar, and a title. Pathway 1, 'Introduction to SQL', features an icon of a magnifying glass over a database and a 100% progress bar. Pathway 2, 'Use Room for data persistence', features an icon of a database and a clipboard, and a 100% progress bar. Pathway 3, 'Store and access data using keys with DataStore', features an icon of a database and a key-value pair, and a 100% progress bar. Each pathway also includes a brief description of the learning objective.

PATHWAY 1	PATHWAY 2	PATHWAY 3
CONCLUÍDO 100%	CONCLUÍDO 100%	CONCLUÍDO 100%
Introduction to SQL Learn how to use SQL to read and manipulate data in a relational database.	Use Room for data persistence Use the Room library to easily create and use relational databases in an	Store and access data using keys with DataStore Learn how to store simple key-value

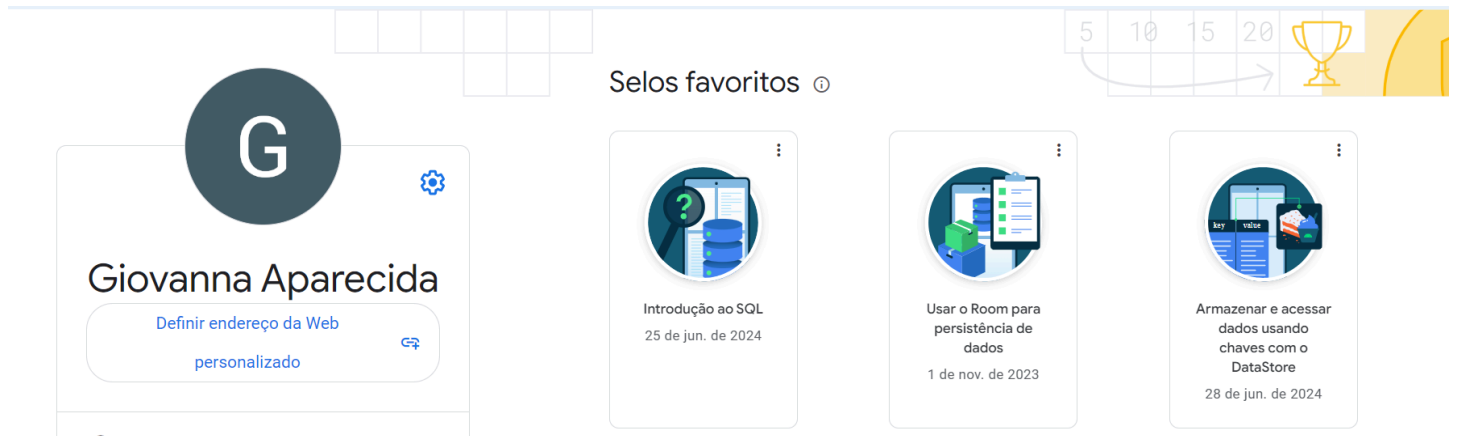

Pathway 1 - Duração: 2 horas

Pathway 2 - Duração: 6 horas

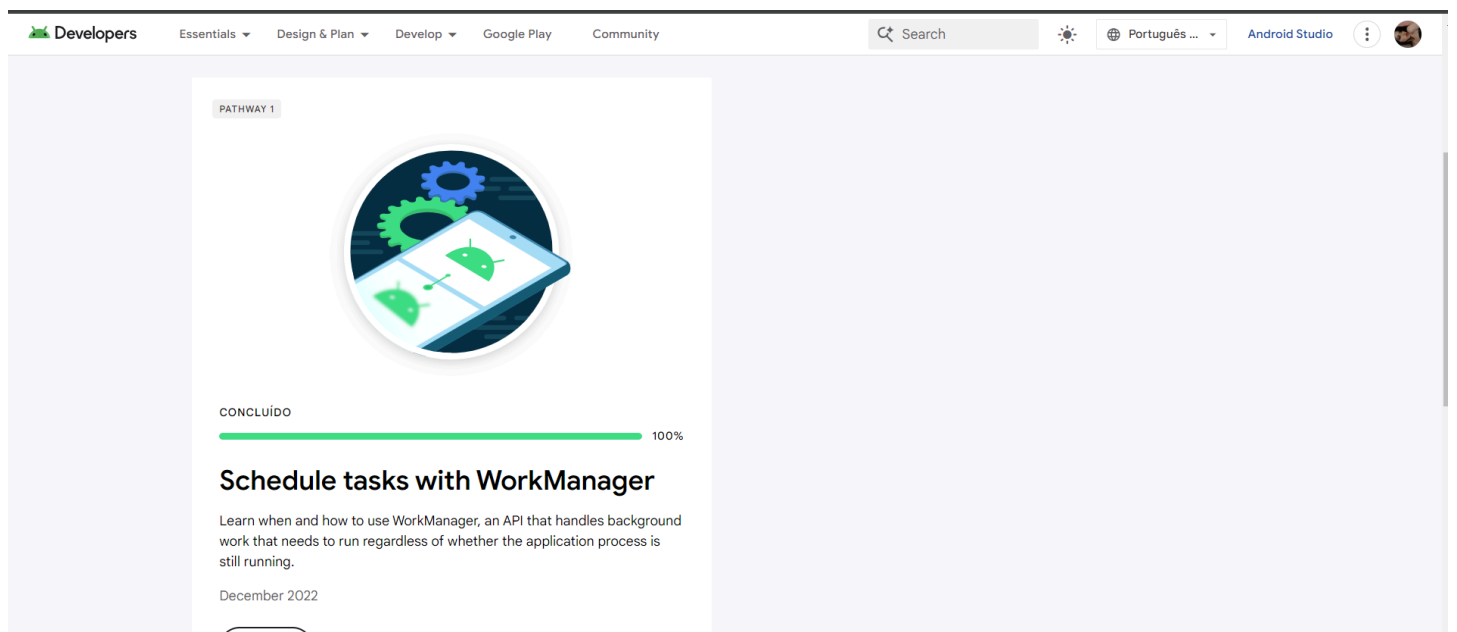

Pathway 3 - Duração: 2 horas

Total: 10 horas

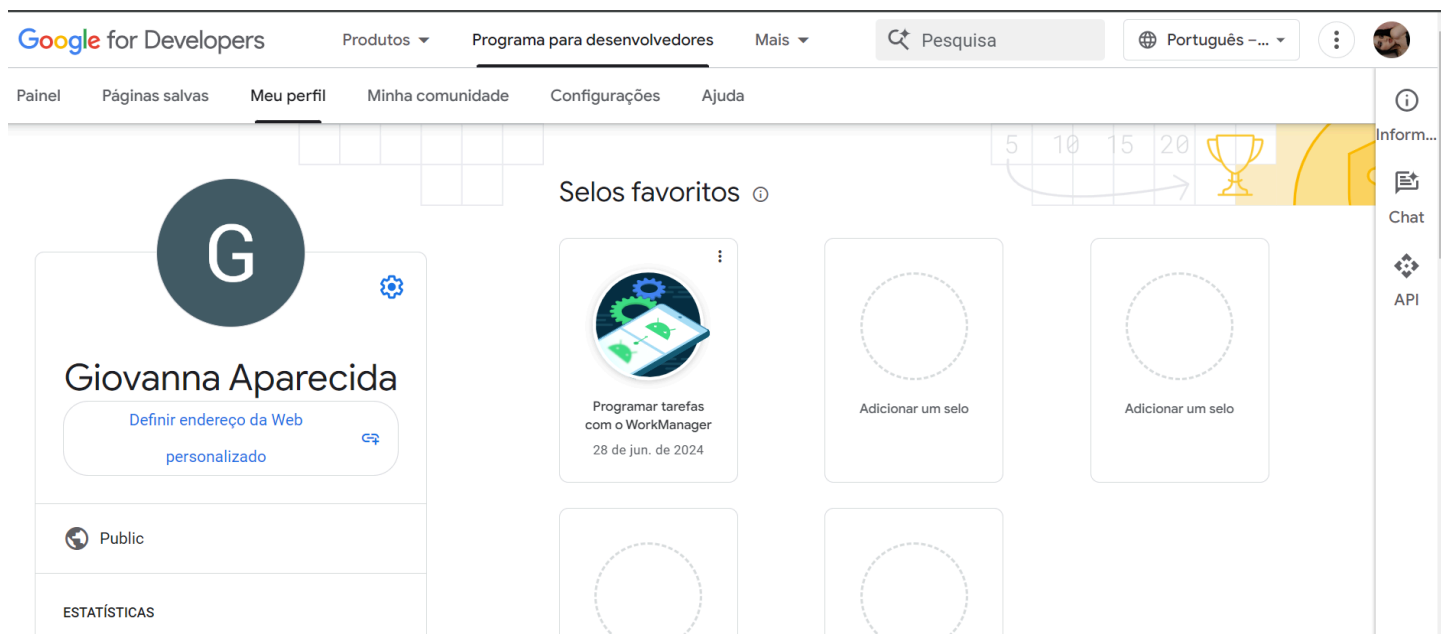

Selos recebidos na conclusão do curso - Unit 6

Evidências da conclusão das atividades do Unit 7 WorkManager - Android Developer

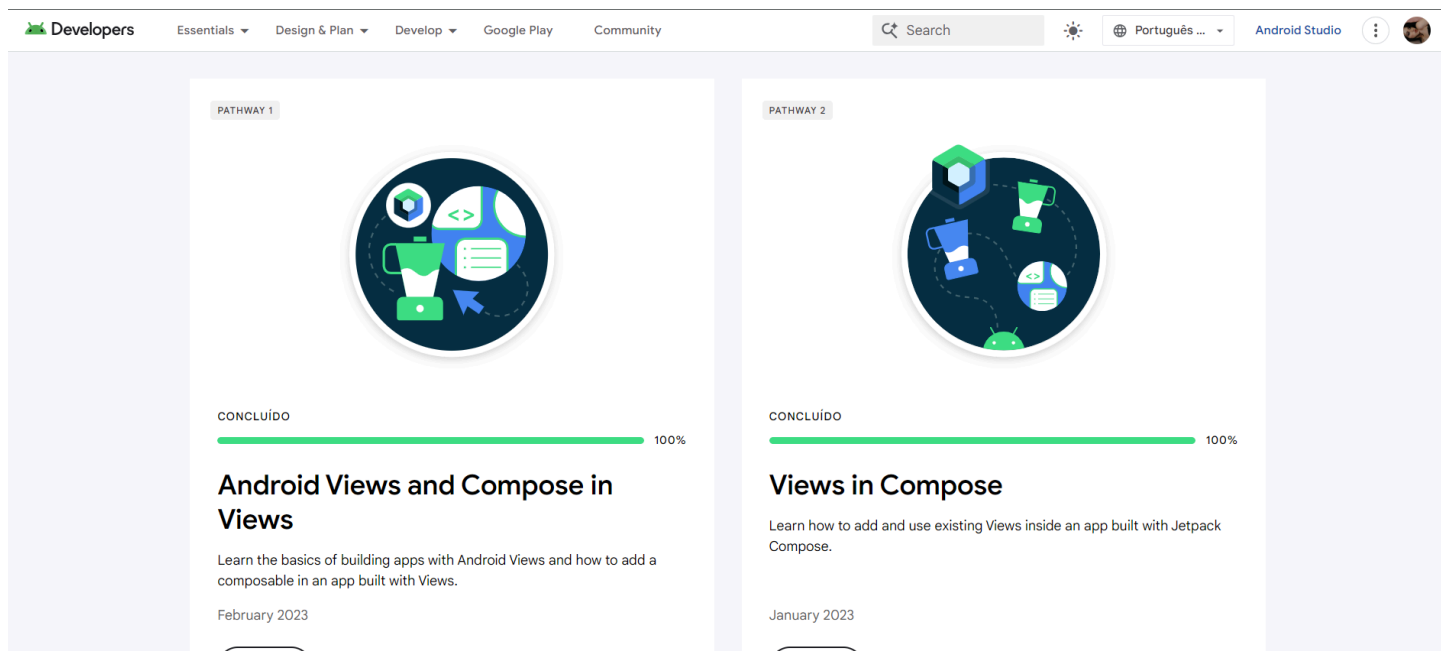

Selos recebidos na conclusão do curso - Unit 7

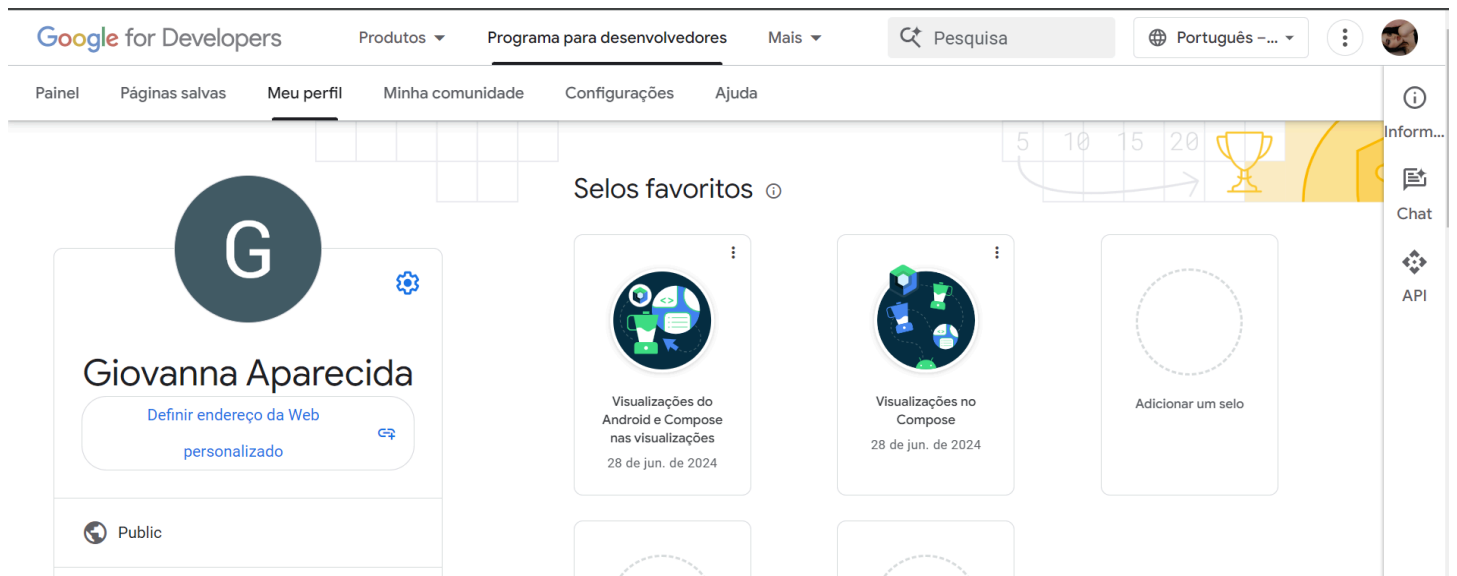

Pathway 1 - Duração: 6 horas

Total: 6 horas

Evidências da conclusão das atividades do Unit 8 Views and Compose - Android Developer

Selos recebidos na conclusão do curso - Unit 8

Pathway 1 - Duração: 3 horas

Pathway 2 - Duração: 1 horas

Total: 4 horas
